

16 June 2024

iSports Afrika Presentation

Introduction

On Sunday 16 June 2024, iSports Afrika hosted our first presentation to introduce iSports Afrika to potential students and explain our vision and mission, and what we plan to achieve for them by the end of the modules.

The presentation covered a variety of topics which helps students and any other interested parties to understand more of the purpose, importance and expectations of the organization. Our directors, Lyle Oliver, Aidan Obery & Ashwin Prince.

Lyle introduced the organization to the students and gave a deep but understanding description of what we do and what objectives we plan to achieve with learners that sign up. Adding to this, Ashwin explained the course content, giving detailed descriptions of the modules and learning outcomes at the completion of each module. Aidan ended off the presentation with the enrollment process and also gave heartfelt gratitude to the students who joined us.

At the end of the presentation, we had learners sign up through our online sign-up forms. This gave them an opportunity to give feedback on the presentation and content as well. According to the feedback received, the students expressed enthusiasm and highlighted that this project is what's missing from schools in previously disadvantaged areas and schools.

Activities

We ended the day by engaging with the learners through an EA Sports FC 24 tournament. The directors, volunteers and students were all involved to bring a spirit of collaboration and engagement with everyone involved. At iSports Afrika, we want to ensure that learners are having fun while learning and being upskilled. Gaming is an integral part of what we do as it fosters critical thinking, decision-making and competitiveness.

Conclusion

We would like to thank all our volunteers who help to make the presentation a great success. We'd also like to thank the Deputy Principal of Kraaifontein High School, Marlene Oliver, for allowing us to use the facilities. We believe this is the start of a great beginning for this organization. This presentation was a significant step towards launching iSports Afrika.
